The 19th International Congress on Sound and Vibration

Dear colleague,

The next **International Congress on Sound and Vibration (ICSV19)** will take place in Vilnius, Lithuania, from 8 to 12 July 2012. At this congress, I am organizing a Structured Session on **"Environmental Noise & Vibration from Urban Transportation networks"**

In view of your research activities and acknowledged reputation in this field, I have the pleasure to invite you to deliver an invited lecture in the session. I would be very pleased if you could accept this invitation. Your abstract should be submitted through the Congress website www.icsv19.org at your earliest convenience, but by **19 December 2011**, at the latest.

The key dates are:

19 December 2011 : Submission of abstracts (300 words)

1 April 2012: Full length paper and early registration

ICSV19 is expected to be one of the largest congresses in the world in the fields of acoustics, noise and vibration, with more than 500 participants from over 60 countries. Therefore, it will be a major opportunity for you to present your latest scientific and experimental results, and learn about the most advanced theories, technologies and applications.

Vilnius, the host city of the Congress, is the historical capital of Lithuania and dates back to the 14th century. The remarkable old town of Vilnius has been awarded the status of World Cultural Heritage by UNESCO. One of the oldest universities in Eastern Europe and the friendly atmosphere of the modern city will mesmerize you and leave you with unforgettable memories.

Sincerely yours,

Dr. Konstantinos VOGIATZIS

Ass. Professor

Transportation Noise - Environmental & Land Use Planning

Faculty of Civil Engineers

University of Thessaly
