

Transport  
Research  
Institute

<b>Department</b>	Transport Research Institute
<b>Job Status</b>	Full Time
<b>Contract Type</b>	Permanent

### Job Summary

TRI is internationally recognised by academics, public policy makers, the transport industry and investors and for the relevance, quality and rigour of its research in areas that contribute to more sustainable and healthy mobility.

Over recent years TRI has established an international reputation in sustainable transport, maritime transport and logistics and in a variety of niche areas. TRI is now seeking an internationally recognised individual who will thrive on the challenge of extending the success of TRI over the coming years. A leading light in your area of expertise (irrespective of your subject discipline) you must have: a PhD or equivalent; an impressive track record of ground-breaking research; published at an international level and secured significant research funds. You will be keen to apply your skills and experience to one or more of TRI's chosen themes.

If you share our passion, ambitions and drive to provide solutions to the mobility challenges faced by society, apply online and discover more about this role and our plans for TRI.

If you would like to discuss this post informally, please contact Professor Keith Dickinson, 0131 455 2809 or 0131 455 2951, or email [k.dickinson@napier.ac.uk](mailto:k.dickinson@napier.ac.uk)
