

Faculty Positions in Transportation Engineering and Transportation Systems

at the Ecole polytechnique fédérale de Lausanne (EPFL)

EPFL's School ENAC (Architecture, Civil and Environmental Engineering) seeks to fill two Faculty positions in Transportation. Appointments at each level (Tenure-Track Assistant Professor, Associate Professor or Full Professor) will be considered.

The topics of interest include, but are not restricted to: roads and railways, sensing and monitoring, smart infrastructures, vehicles and energy, multimodality, risk assessment and safety, real-time management, large-scale urban mobility, distributed networks, logistics and freight, big data analytics, on-demand transportation, integration with energy systems.

We are looking for researchers investigating new research topics, preferably with a multi-disciplinary expertise.

Successful candidates are expected to initiate independent research programs and be committed to excellence in research and to undergraduate/graduate/postgraduate teaching with a focus in the civil engineering program.

EPFL offers internationally competitive salaries and benefits. Significant financial resources and well-developed research infrastructure are available.

The following documents are requested in PDF format: motivation letter, curriculum vitae, list of publications, concise statement of research and teaching interests as well as the names and addresses (including e-mail) of at least three referees

Applications should be submitted electronically to :

<https://academicjobsonline.org/ajo/jobs/5711>

by **October 15, 2015**, when the formal screening of applications will begin.

For additional information, please contact :

Professor Jean-François Molinari transportsearch@epfl.ch
